

SCIENTIFIC PROGRAMME

Course Directors

Valerie Fonteyne

Jochen Walz

Faculty

Ferran Algaba

Phillipe Cornford

Berardino de Bari

Alfonso Gomez de Iturriaga

Henk van der Poel

Alison Tree

Geert Villeirs

DAY 1 – SUNDAY, 26 OCTOBER

Time	Lecture topic Prostate Cancer: Early Detections and Staging	Lecturer
09:00 - 09:15	Welcome and introduction	V. Fonteyne & J. Walz
09:15 - 09:35	The normal prostate: embryology, anatomy and function	G. Villeirs
09:35 - 10:00	The normal Prostate: histological considerations with radiological and pathological implications	F. Algaba
10:00 - 10:35	Prostate Cancer: Epidemiology & Screening	P. Cornford
10:35 - 11:00	Discussion	
11:00 - 11:20	<i>Coffee break</i>	
11:20 - 12:00	Multi-parametric MRI in the diagnosis of prostate cancer	G. Villeirs
12:00 - 12:30	Diagnosis of Prostate cancer: biomarkers and prostate biopsy	J. Walz
12:30 - 13:00	Discussion	
13:00 - 14:15	<i>Lunch break</i>	
14:15 - 14:45	Pathology of Prostate Cancer: Morphological features with treatment implications	F. Algaba
14:45 - 15:15	Staging of Prostate Cancer: Imaging in local and distant disease	G. Villeirs
15:15 - 15:45	<i>Coffee break</i>	
15:45 - 16:15	Risk stratification in Prostate Cancer management	J. Walz
16:15 - 16:45	Discussion	

DAY 2 – MONDAY, 27 OCTOBER

Time	Lecture topic Low Risk and Localised Prostate Cancer	Lecturer
09:00 - 09:30	Active surveillance: patient selection and follow up	H. van der Poel
09:30 - 10:00	Surgery for localized prostate cancer: techniques and long-term outcome	J. Walz
10:00 - 10:15	Pathology of treated Prostate: after Radical Prostatectomy	F. Algaba
10:15 - 10:45	Discussion	
10:45 - 11:15	<i>Coffee break</i>	
11:15 - 11:45	Radiotherapy for localized prostate cancer	A. Tree
11:45 - 12:15	Brachytherapy – indications and results	A. Gomez de Iturriaga
12:15 - 12:35	Pathology of treated Prostate: after Radiotherapy and Brachytherapy	F. Algaba
12:35 - 13:00	Discussion	
13:00 - 14:00	<i>Lunch break</i>	
14:00 - 14:30	Focal treatment options for localized prostate cancer	A. Gomez de Iturriaga
14:30 - 15:00	Radiotherapy delivery and adaptation. What's new?	A. Tree
15:00 - 15:30	Discussion	
15:30 - 16:00	<i>Coffee break</i>	
Parallel Session		
16:00 - 18:00	External Beam Radiotherapy: Target delineation guidelines, Contouring	B. De Bari / G. Villeirs / V. Fonteyne / A. Gomez de Iturriaga / A. Tree
16:00 - 18:00	Tips and Tricks for radical prostatectomy	H. v. der Poel / P. Cornford / J. Walz

DAY 3 – TUESDAY, 28 OCTOBER

Time	Lecture topic High Risk and Locally Advanced Prostate Cancer	Lecturer
09:00 - 09:30	Radio-hormone therapy	V. Fonteyne
09:30 - 10:00	Acute and Late morbidity of External Beam Radiotherapy and how to manage	A. Gomez de Iturriaga
10:00 - 10:30	Discussion	
10:30 - 11:00	<i>Coffee break</i>	
11:00 - 11:30	Locally advanced prostate cancer: the role of surgery and extended lymph node dissection	H. v. der Poel
11:30 - 12:00	Acute and Late morbidity of Surgery and how to manage	J. Walz
12:00 - 12:30	Discussion	
12:30 - 13:30	<i>Lunch break</i>	
13:30 - 14:30	Treatment of N1 disease: a surgeon's view and a radiation oncologist's view	H. v. der Poel / V. Fonteyne
14:30 - 15:30	Bring your own cases: Treatment of localized and locally advanced prostate cancer	Faculty
15:30 - 16:00	<i>Coffee break</i>	
16:00 - 17:00	Journal Club	P. Cornford / V. Fonteyne

DAY 4 – WEDNESDAY, 29 OCTOBER

Time	Lecture topic The Recurrent and Oligometastatic Disease	Lecturer
09:00 - 09:25	Imaging for local and distant recurrence detection	G. Villeirs
09:25 - 09:50	Rising PSA after radical prostatectomy	J. Walz
09:50 - 10:20	Adjuvant and Salvage radiotherapy after radical prostatectomy	V. Fonteyne
10:20 - 10:45	Discussion	
10:45 - 11:15	<i>Coffee break</i>	
11:15 - 11:45	Rising PSA after radiotherapy and brachytherapy and salvage treatments	A. Tree
11:45 - 12:05	Molecular imaging for prostate cancer	J. Walz
12:05 - 12:25	Defining the stages of advanced disease: oligo metastatic, HsmPC, m0mCRPC, mCRPC, ...	H. v. der Poel
12:25 - 13:00	Discussion	
13:00 - 14:00	<i>Lunch break</i>	
14:00 - 14:30	Treatment strategies in the oligo-metastatic setting: surgery	H. v. der Poel
14:30 - 15:00	Treatment strategies in the oligo-metastatic setting: radiotherapy	A. Gomez de Iturriaga
15:00 - 15:30	Discussion	
15:30 - 16:00	<i>Coffee break</i>	
16:00 - 17:00	Bring your own cases: Recurrence and oligometastatic prostate cancer	Faculty

DAY 5 – THURSDAY, 30 OCTOBER

Time	Lecture topic Systematic Disease	Lecturer
08:00 - 08:30	Treatment of hormone sensitive metastatic prostate cancer	P. Cornford
08:30 - 09:00	Treatment of castration resistant prostate cancer	P. Cornford
09:00 - 09:30	Management of side effects of systemic treatment	P. Cornford
09:30 - 09:45	Discussion	
09:45 - 10:15	<i>Coffee break</i>	
10:15 - 10:45	Theranostics in advanced prostate cancer	J. Walz
10:45 - 11:15	Palliative management	A. Tree
11:15	Final discussion and concluding remarks	Faculty
